A Bucket/Drum/ you can use any existing Compost Bin also

Make holes to the container

Any Rake, if not you can use your hand to mix also
Rake is not mandatory

Process

Add Complete pack of Green Mix powder to Your Bucket/Drum/Compost Bin

Add waste Every day

Mix It with Rake or your Hand(mix uniformly) & Repeat the process everyday.

What to do if the moisture is more?

Use any one between Saw dust/ cocopeat and add 2 hand full into composter and give 5 rotations.

If you don't have access to them then add small pieces of paper/ cardboard into composter and give 5 rotations

How to harvest compost?

Collect your compost from top and leave approximately 2-3 kgs of formed compost in the Bucket/Drum/Compost Bin and use that as Green Mix powder for coming Cycle.

Did you know?

You need not buy Green Mix powder after every cycle.
You can use the formed compost as Green Mix Powder for 20 cycles!
That is approximately 18 months!
